MIKLOS EXPELLED--Hungarian Exile Juan Miklos Meszaros left Chile last night on Chilean Government orders. Socialist Senator Corbalan earlier had filed documents with Interior Minister Sotero del Rio which involved Miklos Meszaros in Chilean domestic affairs. Meanwhile, the dailies EL SIGLO and ULTIMA HORA, which carried copies of the documents linking Miklos Meszaros with the U.S. Embassy, said that he was an "agent of the CIA carrying out propaganda in favor of Julio Duran, Radical Party presidential candidate." Reports say that Miklos received a large quantity of propaganda from the U.S. Embassy which was spread throughout the country. The Hungarian exile left for Argentina, but his companion, Casilda Benitez, has remained in Santiago. She is an Argentinian, but no order for her expulsion has been issued, although she has been accused of participating in these activities.
